a history of the original mini cooper in the words of its designers developers professional drivers and owners

produced from 1959 until 2000 the classic mini is loved by millions of owners previous owners and enthusiasts the mini s creator alec issigonis was given a free hand to make a proper small car and his innovative design not only redefined the family car but also started a revolution as a performance car classic mini specials and moke explores the diverse range of vehicles that used the mini shape as well as the only variation actually designed by alec issigonis the mini moke in addition to the famous race and rally cars coachbuilt conversions and highly modified saloons and commercials keith mainland looks at overseas mini and moke production and the many factory produced limited edition minis there is also advice about buying and owning your own special mini

having this book in your pocket is just like having a real marque expert by your side benefit from the author's years of mini ownership learn how to spot a bad car quickly and how to assess a promising one like a professional get the right car at the right price

the essential companion to cooper and cooper s models from the 997cc mkl to the late 1275cc mkiii including the italian innocentis the spanish built authis australian versions and the rover coopers exhaustive research yields a wealth of heretofore unpublished information

today's consumers are more knowledgeable networked and vocal for them consumption is not merely an act of buying products and services but an expression of their creative potential consequently they are demanding a say and a voice in how companies conceive develop and deliver value to them it is not surprising therefore to hear that a large number of companies are transforming how they innovate not only in terms of developing new products and services but in how they are created delivered and supported to customers open innovation thinking where companies collaborate with suppliers distributors and customers to co create unique value is fast replacing traditional thinking that viewed innovation as a proprietary activity and marketing as a static one way broadcast however while there is significant advocacy and buy in for collaborating with customers there is little guidance for companies on how to undertake the journey from applause and appreciation to execution only reading about others success stories nike hallmark p g mozilla etc is not sufficient for helping a company develop a blueprint for themselves in customer driven innovation strategy and branding consultant gaurav bhalla presents a concrete framework to help companies systematically and effectively design and implement collaborative innovation programs with their customers that can be applied in both business to business and business to consumer contexts the authors describe how today's technologies allow companies to create dynamic dialogues with their customers through shared networks virtual marketing techniques and blogs to develop deeper relationships that reinforce brand loyalty and ultimately drive growth they challenge traditional approaches to market research that measure customer satisfaction from a rear window perspective and help companies and their customers look forward instead

emphasizes that the organization itself rather than the products created and marketed by the corporation represents the main point of differentiation and competitive advantage in the marketplace this book argues that the field of corporate branding is undergoing fundamental changes and becoming more cross disciplinary and strategically driven
